

ABOUT

Independent Ability Care (IAC)

Independent Ability Care (IAC) was established by two sisters who were compelled by compassion. Inspired by families in our community requiring holistic disability support, we desired to do something to help. This was the catalyst for Independent Ability Care. At the heart of Independent Ability Care is the principle of person-centered care. We go the extra mile to help our participants achieve their goals. It is important to us that our participants feel valued and supported from our initial contact to the provision of daily home based services.

WHAT IS SUPPORT COORDINATION?

Support Coordination helps you make the best use of your funding. Our Support Coordinators connect you to suitable mainstream community supports, therapy services, and facilitate your access to government services. More importantly, we will work with you to understand your plan and budget supports.

LEVELS OF SUPPORT COORDINATION

1

Support Connection is short-term Support Coordination for participants with low-level support needs. We connect participants to different supports for the purpose of achieving NDIS goals.

2

Participants who have moderate support needs require longer-term management. Usually this applies to participants with Level 2+ funding.

Through careful collaboration and consultation, participants are connected to different service providers. Where possible, the support coordinator will work with the participant and caregivers to understand and manage their plan.

3

Specialist Support Coordination is available to participants with high level, complex support. As this level of support requires the expertise of specialised knowledge and skills, delivery options are considered on an individual basis.

OUR TEAM

- ✓ Multilingual
- ✓ Highly experienced
- ✓ Attentive and friendly
- ✓ Proactive in support provision

OUR VISION

To enable people with disability to live as empowered and equal citizens within the community

OUR MISSION

To provide a range of services that are person-centered, sustainable, goal orientated and flexible.

OUR SERVICES

We provide services that are based on your personal needs, preferences and lifestyle. We work with helping you understand, implement and optimize the provisions of your NDIS plan.

- ✓ Unpack and understand your NDIS plan
- ✓ Consider options for services and supports
- ✓ Overcome barriers to reaching your goals
- ✓ Understand the NDIS system & portal
- ✓ Build the capacity to manage your own life
- ✓ Prepare for your NDIS plan reviews
