

WHAT IF COMMUNITY PARTICIPATION MEANT SKILL DEVELOPMENT, CONTINUED LEARNING AND ECONOMIC PARTICIPATION IN A SOCIAL BUSINESS ?

Avenue is a real business that harnesses the skills and abilities of people with significant disability to bring epic brands to the world.

NOT YOUR TYPICAL DAY PROGRAM !

Avenue is a social enterprise retailing ethical, fair trade and organic brands. We partner with suppliers from around the world whose products are beautiful, empowering and affordable, and bring them here to Australia to sell to our customers via online and retail marketplaces.

Work in Avenue is accessible to all people with disability, without exception. We use a range of techniques, including job carving, individualisation of work tasks and Active Support, as well as assistive technology and assistance from trained support workers, to empower all Team Members to make their mark on the business.

Avenue Team Members run all aspects of the enterprise, including: in-store and digital sales, social media, wholesaling, market research and product selection. The team use their skills to grow the business, and meet their own potential.

Team Members are offered extensive opportunities for continued learning and skill development, as well as a share in all of the proceeds of each sale.
