INDEPENDENT ABILITY CARE

WHO
ARE
WE?

Independent Ability Care (IAC)

Independent Ability Care (IAC) was established by two sisters who were compelled by compassion. Inspired by families in our community requiring holistic disability support, we desired to do something to help. This was the catalyst for Independent Ability Care. At the heart of Independent Ability Care is the principle of person-centered care. We go the extra mile to help our participants achieve their goals. It is important to us that our participants feel valued and supported from our initial contact to the provision of daily home based services.
