Monday-Friday
9am-3:30pm

About Our Program:

The FBA Care Learning Hub is offering a wonderful program for participants living with disabilities based at our center.

The Learning Hub is designed to deliver Face to Face learning for participants over the age of 16. Through the Learning Hub our vision is for participants to learn and develop skills of daily living as well as social skills in a disability friendly environment. At the Learning Hub we aim to support participants to reach their goals and live a life of fulfilment and self-dependence where possible.
