

NDIS Journey

Our Values

At Sydney Multicultural Community Services we follow the enablement principles of care according to which:

Individuals and their carers always have the potential to improve their personal wellbeing.

Gains are not difficult to achieve provided the individuals are willing to explore their potential and people around them are supportive.

Community support is based upon individuals' needs and not on what is available.

About the Program

Sydney MCS Disability Services can assist you to access NDIS which is a government funded scheme to support all Australians under the age of 65 with a permanent disability to provide personalised support and quality care.

We aim to assist you to achieve your goals including independence, community involvement, participation and wellbeing .

As a part of NDIS, we would take a 'lifetime approach' to support all Australians who have a loved one with disability and ensure you get peace of mind in receiving relevant care and support

Services we Provide

- **Assistance with daily life-** with and/or supervising personal tasks of daily life to enable you to live independently.
- **Social and recreational activities-** to enable you to independently engage in social and recreational activities.
- **Group based activities-** to enable you to engage in the community, social and recreational activities in a group.
- **Social and Community participation-** support with participation in skills based learning to develop independence in accessing community.
- **Support to maintain secure living arrangements-** to ensure that you obtain/retain appropriate accommodation.
- **Support coordination**

How to access NDIS services:

Are you a person or have a loved one with a disability who is an Australian resident under 65 years of age? Then please feel free to contact our NDIS staff on (02)9663 922 to discuss your support needs towards accessing NDIS supports and services.

Staff at SMCS constantly strives to apply client centred care based upon every individual's needs, desires and degree of willingness to implement a plan in order to achieve what he or she wants to. All this is done with cultural expertise thanks to our multicultural staff coming from five continents, speaking a range of different languages.
